

**WHIDBEY GENERAL HOSPITAL**

101 Main Street North  
 Coupeville, WA 98239  
 (360) 678-5151  
<http://www.whidbeygen.com/>

If coming from the Seattle or Everett area, you may use either the Washington State Ferry system to get to Whidbey Island, or you may drive to the north of the Island, then turn south and enter the Island through the north end.

To drive VIA I-5: Traveling northbound on I-5 take exit number 230 (63 miles north of downtown Seattle), which is the Hwy 20 Burlington/Anacortes exit. Cross back west over the interstate to Anacortes, and stay straight on WA-20 for almost 38 miles to Coupeville. At the light at the intersection of Hwy 20 and Main Street N, turn left onto Main Street North. The hospital is located on the right side of Main Street, two blocks from the intersection.

To use the WASHINGTON STATE FERRY SYSTEM: Take the Mukilteo/Clinton ferry to Clinton. Once you exit the ferry, turn to the right (follow the direction of traffic to Hwy 525). Follow Hwy 525 for 23 miles until it becomes Hwy 20. Stay on Hwy 20 for another 4 miles, until you reach the intersection (there will be a stoplight) of Hwy 20 and Main Street North in Coupeville. Turn right onto Main Street. The hospital is located on the right side of Main Street North, two blocks from the intersection.
